DEAR READERS AND ADVERTISERS

TIME REALLY DOES WAIT FOR NO MAN. IT'S HARD TO BELIEVE THAT WE HAVE ALREADY LEFT THE FIRST QUARTER OF THE YEAR BEHIND US. BUT THE SHOW MUST GO ON AND THIS TIME ALL ROADS LEAD TO THE NAMPO HARVEST DAY FESTIVAL NEAR BOTHAVILLE.

This is the premier event on the agricultural calendar and once again, as it has been for the last 50 years, the entire platteland community comes together to celebrate an industry that is the cornerstone of the economy and our country's food security. Prodist will again be present at the Nampo Harvest Day festival, exhibiting a wide range of products, old and new. Our expert product managers will also be on hand to dispense

invaluable information and guidance on our wares. The John Deere clothing and toys ranges will again be available and if past experience is any guide to go by, this year's John Deere goods on offer should go down very well. Read all about Prodist at Nampo on page 3 and more about the John Deere range on page 10.

Find out why Trapp Hammer Mills/Shredders are the farmers first choice on page 7. We provide an update on the Wortex by Nastec Solar Pumps range on page 15 and we introduce an exciting new range of pumps from a world-class Italian company. More on page 16.

Winter is almost upon us and our range of Elements heaters has proven extremely popular with heating solutions in oil, halogen and fan variants. Get toasty with Elements heaters on page 3. We also take a look at Superflex Diamond Blades and why they are ideal for wet or dry use on portable grinders, on page 5.

Are you a good retail salesperson? Find out what the top common traits are that top sales people share on page 2.

Thank you as always for your support and patronage and please feel welcome to visit us at the Nampo Harvest Day festival and join over 75000 local and international agricultural enthusiasts at this four day-event in celebration of South African agriculture.

TOP 10

EIENSKAPPE VIR KLEINHANDEL

TIEN EIENSKAPPE WAT TOP
KLEINHANDELVERKOOPSMENSE DEEL .

- 1 Hulle vind maklik aanklank met mense. Hulle kan baie maklik vertroue vestig en verstaan dat mense verskil en dat elke tipe mens toepaslik benader en gesprek mee gevoer moet word.
- 2 Laat die klant toe om die meeste van die tyd te praat (verkieklik 80% van die tyd) deur leidende vrae te vra ten einde die behoeftes van die klant te bepaal.
- 3 Herken en begryp besware en neem nie 'n verdedigende houding in wanneer besware hanteer word nie.
- 4 In staat om die behoeftes van die klant te identifiseer en te prioritiseer - nie net die duidelike behoeftes nie, maar ook moontlike verskuilde behoeftes soos status en prestige.
- 5 Ken hul produkte of dienste op die punte van hul vingers en in staat om 'n balans te vind tussen die klant se behoeftes en wat die produk en/of diens kan bied.
- 6 Praat oor voordele eerder as kenmerke. Hulle is in staat om behoeftes te formuleer op 'n eenvoudige, dog effektiewe en relevante wyse.
- 7 Soek altyd geleenthede om hul kundigheid en kennis uit te brei. Hulle woon seminare by, lees boeke, luister na bande en kyk DVD's op soek na nuwe maniere om hul effektiwiteit en produktiwiteit te verhoog.
- 8 Hulle is vasberade om te wen. Hulle verstaan die definisie van sukses in hul omgewing, sowel as die beloning wat daaraan verbonde is om sukses te behaal. Hulle praat graag oor hul prestasies en sien uit daarna om selfs beter te presteer.
- 9 'n Topklas kleinhandelverkoper het selfvertroue en is meestal 'n opgewekte mens. Hulle wys nie noodwendig hul brandende begeerte om die buite-wêreld te oorwin nie.
- 10 Hulle help graag ander mense, as hulle die tyd kan afstaan om dit te doen. Hulle verstaan baie goed dat tyd die belangrikste hulpbron is wat hulle het, en dat verlore tyd nie teruggewen kan word nie. 

PRODIST BY NAMPO OESDAG

DIE NAMPO OESDAG IS DIÉ BELANGRIKE GEBEURTENIS OP DIE SUID-AFRIKAANSE LANDBOUKALENDER EN ENIGE PERSOON WAT ENIGSINS SY SOUT WERD IS IN LANDBOU, OF DIT NOU 'N VERVAARDIGER, PRODUSENT, KOPER, VERKOPER OF SELFS NET 'N BELANGSTELLEDE BUITESTAANDER IS, SAL DAAR WEES.

Die Oesdag word oor vier dae gehou en dit het verlede jaar meer as 75 000 besoekers van verskeie lande en van regoor Suid-Afrika gelok. Die Prodlist span sal weereens teenwoordig wees met 'n opwindende uitstalling van 'n wye reeks produkte, vanaf

die beproefde handelsmerke tot splinternuwe opwindende produkte. Ons kundige produkbestuurders sal die stalletjie beman en klante van raad en bystand met betrekking tot al ons dienste en produkte bedien.

Ons sal ook 'n volledige besproeiingsvoorlegging doen met spesiale fokus op Italiaanse kwaliteit, naamlik op Wortex by Nastec sonkragsoppe en sonpanele, 'n volledige reeks brandblussertoerusting en nuwe PTO-pompe van Rovatti Pompe (lees meer hieroor elders in die Distributor).

Ons gewilde Basecamp-reeks sal verskeie nuwe buiteligprodukte bekendstel, wat hierdie seisoen reeds beskikbaar sal wees, sowel as nuwe produkte wat nog ontwikkel word.

Bykomend tot die Yanmar en Honda handelsmerke in ons kraggereedskapreëks, sal ons ook die nuwe Trapp hamermeulreëks uitstal. Met meer as 60 jaar se ondervinding, bedryf Trapp nou 'n moderne industriële aanleg, wat hulle in staat stel om 'n nuwe vlak van tegnologiese evolusie te betree. Trapp

hamermeulens/kerwers is bekend daarvoor om boere se eerste keuse te wees weens verskeie redes, wat insluit hul sterk en liggewigontwerp, kwaliteit, draagbaarheid en duursaamheid. Besoek die stalletjie vir meer inligting oor hierdie opwindende nuwe toevoegings tot ons kraggereedskapreëks.

Ander handelsmerke wat uitgestal sal word by die Prodlist stalletjie by Nampo Oesdag sluit in produkte van Zircon, Gro, Current, Hurricane, Guardian, Revet, Workman Tools, Bellota, Falcon, Geoline, Fusion en Elements.

Moenie die geleentheid mis om kundige inligting te verkry oor produkoplossings vir jou en jou klante nie. **PD**

ELEMENTS HEATERS REMAIN A POPULAR CHOICE

"WINTER'S COMING," JOHN SNOW WHISPERED OMINOUSLY, "AND WITH THEM THE WHITE WALKERS." THIS SCARY LINE FROM GAME OF THRONES HERALDED THE BEGINNINGS OF A BATTLE SET IN SUB-ZERO TEMPERATURES AND IN BLIZZARD CONDITIONS IN THE AWARD-WINNING SERIES.

But, fear not, nothing as dramatic as that is predicted to happen in South Africa this winter, but, you never know do you? Well, Prodlist has you covered with a very warm and toasty range of Elements heaters to take care of any kind of chill Mother Nature has up her sleeve for you this winter. From oil heaters with 7, 9, 11 and 13 fins, to halogen heaters with settings from 400W to 1200W, to oscillating heater fans with settings between 1000W and 2000W, Elements will definitely keep the white walkers at bay this winter. Have a look at these hot numbers and pick up the phone and place your order with Prodlist now! **PD**

Oscillating Heater Fan

MECH FOCUS

MARKET LEADER NOW AVAILABLE THROUGH PRODIST

"FOR YEARS, TIMKEN® FAFNIR® HOUSED UNITS HAVE BEEN A LEADER IN THE AGRICULTURAL MARKET."

In 1899 (or sometime thereabouts), Henry Timken, a St. Louis carriage maker, recognised that heavy freight wagons struggled to make sharp turns. To solve the problem, he applied a tapered roller bearing design that could handle both radial (weight) and thrust (cornering force) loads. There were several customer benefits. Firstly, the application ran more smoothly, reducing repair and replacement costs. In some cases the bearings improved wagon performance so much that fewer mules were required to pull them. Finally, better cornering meant less chance of losing a load of goods. Always focused on customer benefit, Henry quickly realised that the tapered roller bearing could improve product performance in many other applications as well. He and his sons, H.H. and William Timken, quickly founded The Timken Roller Bearing and Axle Company and began building the business into what it is today.

For more than 100 years Timken has focused on value creation for diverse industries and market segments. They've grown considerably since being established in 1899, but solving customer problems is still at the core of the business, just like it was when founder Henry Timken patented a tapered roller bearing design that made life easier for freight wagon operators and their mules. And now you can benefit from their expertise by placing your Timken product orders at Prodist.

Timken® Fafnir® is found in a wide array of ball bearing applications. Each bearing is designed with the same idea in mind – to maximise performance. The original wide inner ring ball bearing provides customers with a product that is easily mounted on straight shafts and positioned without shoulders, locknuts or adapters. This same design is still preferred in farm equipment applications.

Leaders in Technology

Through the years, Timken has introduced innovations to improve performance and extend life:

- Patented eccentric locking collar
- Tri-ply seals for effective protection against loss of lubricant and entrance of contaminants
- Shroud seals for positive sealing against abrasives and fibre wrap
- Molded nylon retainer for extra strength and better bearing performance under misalignment
- Complete line of prelubricated and relubricatable bearings
- Flangette pressed steel housing units for light-duty, moderate-speed applications
- Versatile ductile iron units for high strength and a compact package
- Robust housing that provides a wide, more solid footprint
- Conventional setscrew that now provides shaft protection and prolongs shaft life
- Easiest-to-install shaft guarding product available

Leaders in Agriculture:

The performance advantages of Timken products are popular with large agriculture OEMs and implement manufacturers. Proudly assembled, the factory in Pulaski, Tennessee USA, Timken is the brand you can trust.

They continue to develop special units to serve the agricultural market:

- Idler pulleys
- Idler sprockets
- Varieties of special bearings with steel or iron housings
- TDC coating on selected surfaces to protect against sea, land and fretting corrosion

Applications

- Field preparation and conditioning
- Planting
- Harvesting
- Processing
- Conveyors

In addition Timken offers a complete line of application-specific, custom-formulated lubricants that help bearings and components operate efficiently in industrial environments. High-temperature, anti-wear and water-resistant additives offer superior protection in the harshest conditions. You can turn to Timken for all the friction management products you need to extend life, boost productivity and reduce downtime. Call Prodist now to find out more and place your order. **PD**

SUPERFLEX EVOLUTION SEGMENTAL DIAMOND BLADES LIKE A HOT KNIFE THROUGH BUTTER

FOR WET OR DRY USE ON
PORTABLE GRINDERS

Superflex Evolution diamond blades offer both productivity and life, as well as extremely competitive pricing – genuine value for money products. Aimed primarily at the construction industry, they operate very efficiently for wet or dry cutting of bricks, pavers, roof tiles, floor tiles and various concrete products.

The packaging has been designed to take up the minimum display space and has tamper-proof characteristics to counteract possible theft, or additional product insertion into the packaging. At the same time there is a cut-out feature which enables the customer to see and feel the actual product.

The display hanger cut-out has 3 layers of rugged cardboard, providing additional strength and tear resistance, thus improving display life.

Particular attention has been given to the product information on the packaging; the front contains a clear and concise instruction as to what the product is designed to do, enabling the customer to make an instant decision about the suitability of the product for his purpose. The back of the packaging goes into greater detail regarding the effective use of the various types of diamond blades.

Superflex Evolution Segmental Diamond Blades are available in 115mm and 230mm diameter to suit popular angle grinder sizes. **PD**

NUWE CLAASENS BILTONGKERWER

- MAAK DIT MAKLIK

DIK OF DUN? JY HOEF NOOIT WEER TE KIES NIE! NOU KAN JY DIK EN DUN BILTONGSKYFIES KERF MET DIESELFDE KERWER. DIE JONGSTE TOEVOEGING TOT DIE CLAASENS REEKS BILTONGKERWERS IS 'N VERSTELBARE HANDKERWER. MET DIE DRAAI VAN 'N KNOPPIE KAN JY NOU BESLUIT OF JOU BILTONG DIK OF DUN GEKERF MOET WORD EN ENIGIETS TUSSENIN! (2 TOT 9 MM)

Net soos die gewilde Claasens Hand Biltongkerwer en die Hand Biltong Chunck-snyer skroef hierdie kerwer ook aan die tafelblad vas. Dit word, net soos al die ander Claasens produkte, van gegote aluminium vervaardig en dieselfde doeltreffende spiraallem word ook hier gebruik.

Die voetstuk van hierdie kerwer is nou hoër as die gewone handbiltong- en handbiltong chunk-kerwer sodat 'n bakkie vir jou gesnyde biltong makliker daaronder geplaas kan word.

GET YOUR TRAPP HAMMER MILLS AND SHREDDERS

FROM PRODIST

WITH MORE THAN SIXTY YEARS OF PERFORMANCE, TRAPP NOW HAS A NEW AND MODERN INDUSTRIAL PLANT, INCREASING ITS PRODUCTIVE CAPACITY AND ATTAINING A NEW LEVEL OF TECHNOLOGICAL EVOLUTION.

TRAPP hammer mills/shredders are well known to be the farmer's first choice for various reasons. Featuring strong and lightweight designs, they are quality, portable products boasting excellent durability.

This is a highly efficient solution combining speed and practicality for the task at hand. They can be used for grinding cereal seeds, husks, strip corn, sugarcane, manioc foliage, sedge or to prepare feed for cattle, sheep and game. In many cases the machine is used for grinding spices, tea and maize. 

HAMMER MILL/SHREDDER BRIGGS & STRATTON 3.5HP

Powered by a petrol 3.5HP Briggs & Stratton motor the TRAPP TRF80 can mill/shred between 500kg to 1200kg green crop per hour.

TRF80

HAMMER MILL/SHREDDER 2HP MOTOR 220V

Powered by a 2HP -220V electric motor and can mill/shred green crop between 700kg to 1400kg per hour.

TRF400E

HAMMER MILL/SHREDDER HONDA GP160 5.5HP

Powered by a petrol 5.5HP Honda GP160 motor the TRAPP TRF300GP can mill/shred green crop between 700kg to 1400kg per hour.

TRF300GP

TRAPP

Hierdie multi-biltongkerwer is die enigste in sy soort en dus uniek. As biltongkerwer het dit die vermoë om nat of droë biltong maklik in skyfies te sny – so elke gesinslid kan nou kies hoe dik of dun sy of haar biltong moet wees!

Dit is nou ook makliker om biltong presies reg te kerf vir verskillende gebruike – bv om oor pizza te strooi, of toebroodjies te maak of om saam met jou wyntjie tydens 'n lekker kuier te geniet.

Probeer gerus ook groente sny - aartappelskyfies, tamatie, wortels, patats en boontjies, of beet, of uie, of – toets dit self!

Die kerwer maak maklik skoon – na gebruik, gooi 'n bietjie kookwater daaroor en laat dit om self droog te word.

GIDDY'UP 
AND RIDE YOUR PONY

But make sure you have it kitted out with Prodist's Hilltop Saddlery range of quality, affordable equestrian products.

Did you know that the local equestrian market comprises some half-a-million horses, 200 000 donkeys and 17 000 mules? And out of this market the South African National Equestrian Schools Association boasts 38 000 riders on some 5 000 horses.

Not to mention the horse-racing fraternity and the horses active in the agri-sector. Prodist is proud to offer a quality range of highly competitive products which are sourced from local and international manufacturers.

So, whether you need a range of tack which addresses the agricultural user as well as the entry level rider, or whether you need grooming products like shampoos and brushes, stress no more and give us a call. We'll put that spring back into the step of your favourite horsey in no time! 

FREESTYLE
 NOW AT PRODIST

PRODIST IS PROUD TO ANNOUNCE THE ADDITION OF FREESTYLE TO THEIR PRODUCT RANGE.

The well-known apparel brand which includes footwear and handbags is an established entity in the agri-community and has a reputation for style and durability.

Aside from bags and satchels, Prodist will also be distributing a range of Freestyle footwear. The advantage for you, the client, is that the Freestyle range of products will be more readily available from Prodist without a long lead time to worry about. Prodist's involvement also reduces the issues around minimum order quantities.

More about Freestyle

Freestyle is incorporated as a close corporation founded in 1985 by Ethwyn Munro and has been managed and owned since 1996 by Grant N. Munro. Freestyle exports through partners to the USA, Namibia, Swaziland and Botswana. The main market for Freestyle products is South Africa. The factory is based in Ottery, Cape Town. The product range includes satchels, handbags, belts, hats and shoe-care products. The footwear range includes shoes and boots made by the stitch-down and stuck-on method, slotted and hand-lasted sandals and specialised footwear according to exclusive designs. Footwear consists of men's, ladie's and children's boots and shoes, designed for the outdoor market and work-wear.

Call Prodist now to place your orders for this exciting new range of Freestyle products. 

WANT IT

TIED, STUCK OR CLIPPED?

LOOK NO FURTHER THAN THE NEW RANGE OF CURRENT INSULATION TAPE, CABLE TIES AND CLIPS, AVAILABLE FROM PRODIST.

INSULATION TAPE

This range of high quality insulation tape has been designed with the highest quality standards through first-class technical standards and an ISO9001 international quality management system in the production process. The tape has high strength and extensibility, good ageing resistance, high insulation, adhesiveness and is non-flammable, which gives you the assurance of quality and safety.

CABLE TIES

The new Current cable ties are a patented design and were developed with the contractor and DIY-enthusiast in mind when quality and affordability are the product prerequisites. The cable ties are tested to the highest quality standards and materials used have been tested by TUV to EN 62275:2009 standards, thus ensuring the products are manufactured to the highest quality.

The range is packaged in both black and white colours in 100-packs for the contractor as well as 20-packs for the DIY-enthusiast in all popular sizes, in resealable bags, and other colours are available upon request.

CABLE CLIPS

Available in all popular sizes from 4mm -12mm round and 5mm-10.5mm flat, all packaged in 100 and 20-packs for the contractor and DIY-enthusiast. Material used is high quality PP and steel nail; easy to use and supplied in resealable zip lock bags.

CURRENT

Protek's rodenticides eradicate disease causing rodents in a single feed.

Rats and mice are very active in winter looking for a suitable place to stay and to find food, usually in places where they are the least welcome - in our homes and gardens. In winter, there is a decline in food availability and our homes provide an alternative pantry to these pesky rodents. In addition to the health risks they pose, they can also cause severe damage to our property.

Protek's rodenticides provide the solution!

Benefits:

- Controls norway rats, roof rats and house mice
- Convenient and easy application
- Ready to use pellets, wax blocks, grain and liquid bait
- Single feed

Handy tips:

- **Never** handle rodenticides with your bare hands
- Remove dog food as it contains Vit K, an anti-dote for anti-coagulants
- Use liquid bait where food is readily available and pellets, grain or wax blocks where there is a food shortage
- For safe application of rodenticides, always use a bait station

Enquire about our complete range in-store or contact us on 0861 PROTEK (0861 77 68 35) for more information

DIE JOHN DEERE KLEREREKES IS AMPER 'N ORDETEKEN WAT MET TROTS GEDRA WORD IN DIE PLATTELAND. DIE REEKS STREK VAN BABAKLERE TOT RUWE PLAASHEMDE EN STEWELS.

Daar word ook vir die dames gesorg met stylvolle items wat enige stadsmeisie John Deere-groen sal maak van jaloesie. Dit is bekend dat die grootste deel van die plaasgemeenskap in Sentraal Suid-Afrika die geleentheid by die Nampo Oesdag gebruik om hul jaarlikse John Deere klere-inkopies te doen en die Prodinst span is hierdie jaar gereed om die stalletjie te beman, wat ongetwyfeld 'n byenes van aktiwiteit gaan wees.

Items wat jy net moet hê sluit in die John Deere moulose groeipakkies vir babas, groen vir die seuntjies en pienk vir die dogtertjies. *Hoodies* bly 'n treffer wat nooit uit die mode gaan nie en perfek is vir die koue wintersdae. Kyk na die oulike *hoodies* vir seuns en dogters van 4-7 jaar oud. Moet ook nie uitmis op die modieuse langmou T-hemde nie - kinders sal dit kan dra vir solank as wat dit hulle neem om dit te ontgroeï.

Vir jou tiener en ouer kinders sluit die reeks opwindende nuwe ontwerpe op T-hemde en *hoodies* in, aangebring op die tipiese ruwe maar afgewerkte John Deere-manier. Die pienk dames-*hoodie* spog met die "Nothing runs like a Deere"-motief en belooft om uiters gewild te wees.

Terug na die babas - ons het ook 'n opwindende reeks speelgoed, ontwerp om die brein en kreatiwiteit te stimuleer. Van die speelgoed om voor uit te kyk is 'n vloerlegkaart, met plaasontwerpe op elke legkaartstuk, 'n houttrekker-verfstel, wat jy sal moet wegsteek vir pa, en natuurlik die baie gewilde *smiley face*-trekkers en gereedskap. Vir meer inligting oor wat om te verwag by die John Deere stalletjie by die Nampo Oesdag, of om jou John Deere winkelvoorraad aan te vul, skakel asseblief vir Prodinst nou. **PD**

Dulux
TRADE

Solvent-based

Dulux Trade Truck & Tractor Enamel Paint

Designed to withstand extreme conditions

Dulux Trade Truck & Tractor Enamel is a quick drying, high gloss enamel for interior/exterior surfaces where a glossy durable finish is required.

White	JD Yellow	IH Red
Black	Caterpillar Yellow	Ford Tractor Blue
JD Green	MF Red	Mercedes Cream

Pack Sizes	1L and 5L
Sheen	High Gloss
Touch Dry	2 Hours
Spread Rate	Approx. 10m ² per litre per coat

- High build - reduces amount of paint required
- Excellent durability - it is designed to withstand extreme weather conditions
- Full high gloss finish - ideal for all tractors and implements
- Large colour range - all colours are colour matched to Tractor & Implement manufacturers' colour standards
- No added lead, wide range suitable for children's toys

From walls to trims,
top to bottom,
inside and out.

THE DURABLE FOOT OPERATED GREASE GUN

G.Coupler THE ORIGINAL
QUICK RELEASE GREASE GUN COUPLER

NEW LONG SERIES COUPLER

Self-Aligning Quick Release

HANDS FREE

Features ...

- A two-stage self priming pump.
- Delivers 2.7ml per stroke to a maximum 10,000 Psi (690 Bar).
- Canister holds up to 8Kgs of grease.
- Equipped standard with a 2m high pressure hose.
- Patented pressure return valve, minimises waste.

A Grease Coupler that ...

- Locks on ... Stays on ... Then comes off easily.
- Grease goes in ... Not on the machine.
- Fits lever, electric and pneumatic grease guns.
- Works with SAE and Metric fittings.
- Rated 10,000 Psi (690 Bar).
- Patented design minimises waste.

Easy Greasing is Thorough Greasing - Maximises Equipment Life

WORTEX BY NASTEC

SOLAR PUMPS GAIN FOOTHOLD

IT HAS BEEN TWO MONTHS SINCE THE LAUNCH OF OUR WORTEX BY NASTEC SOLAR PUMPS RANGE, AS REPORTED ON IN THE PREVIOUS EDITION OF THE DISTRIBUTOR. WE HAVE HAD VERY POSITIVE FEEDBACK FROM OUR CLIENTS AND ARE GAINING A STRONG FOOTHOLD IN THE MARKET. SO MUCH SO THAT WE HAVE ADDED A WHOLE NEW SEGMENT ON SOLAR PUMP SELECTION, DESIGN AND TECHNICAL INFORMATION IN OUR SCHEDULE 1 IRRIGATION TRAINING MANUAL. OUR WORTEX BY NASTEC SOLAR PUMPS ARE HERE TO STAY!

Customised service

We offer a complete solution for all your solar pump requirements. Should it be necessary, one of our irrigation technical team members will come out to the client's site to inspect, measure up and design the system. Once all information is received, we will create a material list and give a complete quote through our Systems department. This will ensure that the system is designed correctly and as efficiently as possible.

The most important advantage for the farmer in going solar is the fact that once the initial capital investment is paid off, and depending on the size of the project, they will be able to put at least 90% of what would have been running costs, back into their pockets.

Save up to 90%

Let's give an example of a recent scenario: We designed an irrigation system with a 15kW 400v 6" borehole pump and motor. The whole system requires 22kW of solar panels and will deliver 40m³ per hour at 80m head. This system

is estimated to pay itself off within 2 to 3 years. Once the capital investment has been taken off, namely the cost of the project, the client will be able to save up to R6 000 a month or R48 000 a year. These costs are simply calculated from the monthly rental of the transformer and the electricity used to power the 15kW motor. **PD**

It is evident - going solar is the future!

Please feel free to contact Prodlist for a free design and quotation on all your solar pump requirements.

NEWS

ITALIAN EXCELLENCE

FROM PRODIST

IN 1965 THE ROVATTI FAMILY IN REGGIO EMILIA, ITALY, STARTED THE ROVATTI PUMPS COMPANY AND HAVE SINCE DEVELOPED A TRUSTED AND RELIABLE REPUTATION FOR MANUFACTURING WORLD-CLASS CENTRIFUGAL PUMPS FOR SUBMERSIBLE AND SERVICE INSTALLATIONS. NOW THAT WORLD-CLASS EXCELLENCE IS AVAILABLE FROM PRODIST.

The Rovatti single-stage mini centrifugal or self-priming high pressure pumps are available in over-gear, driven by cardan shaft of PTO (TOF-50A) or direct connection (TOF-50). Axial inlet and scroll outlet.

The Rovatti TOF-50 series compact and portable user friendly tractor driven centrifugal pumps have been designed by ROVATTI to satisfy a wide range of applications, including water transfer, irrigation, wash-down and bowser/tank filling, etc....The selection of plastic suction and delivery fittings reduces the overall weight to allow for a rapid transfer between tractors for emergency pumping duties.

rovatti

Constructed from high specification cast-iron, each pump incorporates robustly engineered helical gears, oil bath lubrication of bearings and a quality mechanical seal to guarantee high efficiencies and a reliable and long maintenance free operational life. These pumps are fitted with the most modern devices and ensure an easy and reliable coupling to any type of tractor. Available both in centrifugal and self-priming centrifugal version. Each model is available both in cardan shaft driven version and with direct coupling to tractor p.t.o.

Features include

- Light and compact pump
- Easy installation
- Application flexibility
- Available in self-priming execution
- Available with trolleys and three point linkage. **EP**

PROTECT YOUR CONIFERS

AGAINST THE DREADED ITALIAN CYPRESS APHID!

PROTEK MERIDIAN IS A HIGHLY EFFECTIVE, SYSTEMIC PRODUCT OFFERING PROTECTION AGAINST A WIDE VARIETY OF GARDEN PESTS. MERIDIAN IS PACKAGED IN CONVENIENT, WATER-SOLUBLE BAGS, SO THERE IS NO HANDLING OR MEASURING OF THE PRODUCT.

The safer, environmentally responsible green band formulation offers very fast protection (within 7 days) and long-term control. Meridian can be applied as a preventative and corrective treatment against Italian cypress aphids and aphids on roses. It also provides quick control against mole crickets on your lawn and in flower beds and also controls the beetle larvae (white grubs) that destroy your plants.

Meridian can be applied as a soil drench or as a foliar spray.

If you have conifers in your garden, you should treat it NOW against the dreaded Italian cypress aphid in order to prevent total destruction of your plants.

Also be on the lookout for ants as they are an indication that the Italian cypress aphid is active. The ants 'milk' the aphids for honeydew, which serves as a food source for the ants. The mildew can cause a secondary fungal infection (black sooty appearance). Treat preventatively with a systemic fungicide, such as Protek Tenazole. Unfortunately the damage caused by these insects is only seen in October (brown, dead leaves and branches). It is therefore very important that you treat your plants preventatively. **PD**

Quick-Dry Enamel For All Metal Surfaces High Quality, High Gloss, Quick Drying Solvent Based Enamel

Quick-Dry Primer For All Metal Surfaces High Quality, Matt, Solvent Based Primer

Dulux Quick-Dry Enamel is formulated for protecting interior and exterior steel surfaces with an exceptional high gloss for a long lasting finish
