# DEAR READERS AND ADVERTISERS

THANK YOU FOR MAKING TIME TO READ OUR MAY EDITION OF THE DISTRIBUTOR MAGAZINE. A BIG THANK YOU ALSO TO OUR LOYAL ADVERTISERS AND CONTRIBUTORS FOR YOUR SUPPORT.

**T**he year 2015 is going ahead at full speed with its share of opportunities, hazards and challenges.

In this magazine we focus on the ever-exciting topic of hunting and meat processing. Prodist is well-positioned to supply a comprehensive range of hunting accessories as well as meat processing requirements and equipment.

As part of the regular mechanisation focus, we stop at Geoline sprayer equipment and accessories. Geoline is well established and Prodist is proud to be responsible for their local distribution.

We will always strive to make The Distributor relevant and a pleasure to read. A new feature dealing with new products and products your store cannot be without is introduced in this issue.

We pride ourselves in sourcing the best local and international products and will use The Distributor to make you aware of any developments.

Progress with online activities and the implementation of exciting developments to make life easier for our customers, will be a regular feature in the magazine. In this issue, we focus on the ability to track orders with Prodist online.

Happy reading. **PD**

**E**njin-koelmiddels is ontwerp om oorverhitting te voorkom. Anti-Freeze is gemaak om te keer dat jou enjin nie vries nie en beskerm dit teen oorverhitting. Kies die oplossing vir jou enjin uit ons nuwe reeks en vermy sodoende die ontydige winterprobleme.

#### ANTIVRIES SOMER KOELMIDDEL QUATTRO 50% - AC010

Hoë kwaliteit, 5-in-1 mengsel, met 50% MEG teenvries en -korrosiebymiddels. Geformuleer vir verkoelingstelsels van moderne passasiers, handels, landbou en veldvoertuie. Die gebruik van Quattro antivries en somerkoelmiddel verlaag die vriespunt en verhoog die kookpunt van die koelmiddel dramaties, veral in voertuie met lugversorgers. Beskerm alle metale in verkoelingstelsel soos koper, aluminium, gegote yster, staal en soldeersel. Het geen uitwerking op verkoelerype en pakstukke nie.

#### ANTIVRIES 4 SEASONS 50% PREMIX - AC005

Hoë kwaliteit 6-in-1 beskermer met 50% MEG teenvries en -korrosiebymiddels. Geformuleer vir verkoelingstelsels van moderne passasiers, handel, landbou en veldvoertuie. Beskerm alle metale in verkoelingstelsel soos koper, aluminium, gegote yster, staal en soldeersel. Het geen uitwerking op verkoelerype en pakstukke nie.

#### ANTIVRIES 4 SEASONS 100% KONSENTRAAT - AC002

Hoë kwaliteit, 6-in-1 beskermer met 95% MEG en 5% hoë verrijging teenvries en -korrosiebymiddels. Geformuleer vir verkoelingstelsels van moderne passasiers, handels, landbou en veldvoertuie. Beskerm alle metale in verkoelingstelsel soos koper, aluminium, gegote yster, staal en soldeersel. Het geen negatiewe effek op verkoelerype en pakstukke nie. **PD**

## FOOD FOR THOUGHT

The following statistics about the South African hunting industry were released by Dr Herman Els and are available at [www.africanhuntinginfo.com](http://www.africanhuntinginfo.com). 10 years ago, there were less than 5 000 game farms in South Africa. In 2012 there were 12 000 game farms in South Africa.

- 10 000 of these farms have hunting exemption.
- 20 million hectares of land are in private ownership representing about 70% of land use for wildlife conservation; the other 30% is government owned national and provincial game reserves.
- The hunting industry generated R7.7 Billion in 2011 - .25% of SA's national GDP.
- R3.1 Billion per year was generated from around 250 000 biltong hunters in South Africa.
- R2.1 Billion per year was generated from around 15 000 trophy hunters from abroad. The balance was generated from add-on services, food and accommodation.
- Trophy hunting has a lesser impact on wildlife than biltong hunting.
- Hunting is by far the largest revenue generator for game farmers. The sale of animals represents only around 5% of the revenue generated by game farmers.
- Sixty per cent of all wildlife in South Africa is owned privately outside of national and provincial parks.
- Game and hunting farmers are the largest contributors towards the conservation of wildlife.
- Game farms create three times more employment than on a normal livestock farm. In recent years more than 70 000 jobs

# A HARDWORKING RANGE OF WATERPROOFING PAINT **THAT KEEPS WATER IN OR OUT**

EFFECTIVE WATERPROOFING IS ONLY POSSIBLE WITH THE RIGHT PRODUCTS. DURAM'S EXTENSIVE RANGE OF ACRYLIC, BITUMEN AND POLYURETHANE PRODUCTS WAS DEVELOPED BY A TEAM OF DEDICATED PAINT TECHNOLOGISTS TO PROVIDE A SOLUTION FOR EVERY WATERPROOFING NEED - FROM WALLS AND ROOFS TO SHOWERS, PONDS, WATER FEATURES AND DAMS.

## DURAM RAINKOTE

### Pure acrylic waterproofing

Used with Duram Duramesh membrane, Duram Rainkote forms a tough waterproofing barrier that is hard-wearing, puncture resistant and withstands cracking and movement of the underlying surface.

#### Where to use:

##### Joints, cracks or gaps

For flashings, roof joints, roof screws, parapets and wall and chimney cappings.

#### How to use:

##### Use with Duramesh Membrane

1. Apply a thick coat of Rainkote.
2. Press Duramesh into wet Rainkote.
3. Apply a coat of Rainkote onto Duramesh.
4. Apply at least one more coat of Rainkote.

## DURAM RAINKOTE

### FIBRE-TECH

Fibre-reinforced pure acrylic waterproofing Duram Rainkote Fibre-Tech is a membrane-free system that is fibre-reinforced to form a thick, strong and flexible waterproof coating.

#### Where to use:

##### Fine hairline cracks

For parapets, wall and chimney cappings, gutters and weather walls, roof screws, fish ponds and water features.

#### How to use

##### Membrane-Free System

Simply paint Rainkote Fibre-Tech on - no layering with mesh therefore quick and easy to apply.

WWW.CLAASENSDESIGNS.CO.ZA

Part of the Tecomec stable, Geoline has a catalogue of over 2 300 articles for orchard & crop sprayers created through their passion for innovation and experience.

Tecomec is an Italian company based in Reggio Emilia, the cradle of farming and industrial development, and a region renowned worldwide for its top quality technology.

Tecomec is a company of Emak Group, which, in turn, belongs to Yama Group with over 30 company affiliates, and represents the biggest Italian group engaged in the design, production and sale of machines for farming, gardening and forestry applications.

The Geoline range embodies the Italian reputation for efficiency and design-style, combined with reliability and safety.

#### 30 YEARS EXPERIENCE

Tecomec celebrates 30 years of business this year. When Tecomec was established in 1985 a new production and commercial company made its debut on the world market for forestry and gardening machinery. Now the company has consolidated its success by the distribution of more than 10 000 articles in 50 different countries. The secret to this success, according to Tecomec, lies in the company's philosophy, in the common spirit that moves all of its staff and its production and commercial organisation. Tecomec keeps its range of products fresh and relevant by constantly researching and renewing its product lines. The company operates to the severest quality standards and its products are certified according to safety standards in force both in the European Union and in the major markets outside of the EU.

Investment and research are the key focus areas which underpin the industrial strategy at Tecomec. The Geoline product range expands constantly and currently competes with all the top names in the worldwide market. **PD**

## NEW COURIER ON BOARD WITH PRODIST

IMPERIAL EXPRESS HAS BEEN APPOINTED AS PRODIST'S NEW COURIER TO HANDLE DELIVERIES FROM THE POMONA DEPOT TO THE COASTAL REGIONS AND ALL DELIVERIES TO ALL AREAS FROM THE BETHLEHEM DEPOT.

Imperial have a nationwide network and do most deliveries with their own transport, eliminating the potential frustration of handing parcels over to third parties. The courier service uses state of the art "sign on glass" technology on most routes which will be implemented in due course on the Prodlist deliveries.

Imperial, which came on board in March this year provides a faster and more efficient service to our customers and service level improvements are already becoming visible.

A scanning system has been implemented in the Pomona warehouse where Imperial simply scans the parcel to pick up the delivery details and no manual capturing is necessary.

Imperial Express is a South African managed total logistics company and has been in operation for over 25 years. The company leverages off IMPERIAL and with over 3000 centres across the country, offers a competitive advantage to clients. They also offer a full parcel track and trace system which can be interfaced with a customer's system to ensure full visibility across the parcel supply chain. **PD**

# NEW LOOK FARMCITY MONTANA PROVES POPULAR WITH CUSTOMERS

SINCE THE NEWLY REFURBISHED FARMCITY BRANCH OPENED IN MONTANA IN MARCH 2015, IT HAS BEEN WELL-RECEIVED AND WELL-PATRONISED BY CUSTOMERS.

**“W**e have had really positive feedback since the change-over. Customers enjoy the store and atmosphere. Many customers claim that it is better now than what it was before.

Customers like the new fresh look and I am 100% convinced that the FarmCity brand is also better established in the city as a result. We can definitely see an increase in feet and sales in our store since the changeover,” says FarmCity Montana store manager Louis Stoffberg. “Our personal touch and friendly customer service remain top priority.”

Now you can buy online! You'll be pleased to know that, as promised in our previous edition, the FarmCity online purchasing facility is now live and up and running! So if you cannot come down to the store to take advantage of our “personal touch”, all you need to do is add your own personal touch, or rather, click your mouse on the right buttons at [www.farmcity.co.za](http://www.farmcity.co.za) and you will have your shopping list delivered to your door in no time.

All you have to do is register your details to receive your password. Then follow the easy links to our products and once you've selected the quantity you require, just pop it into your online shopping basket and proceed to the payment options.

The system allows for immediate stock availability checks, it is live and convenient and you will be able to track your order to see exactly where it is in the process of making its way to you. **PD**

## HAWKINS HELPFUL HANDY TIPS ON GOOD BATTERY CHARGING

HAWKINS IS THE LEADING SOUTH AFRICAN BATTERY CHARGER

MANUFACTURER FOR OVER 5 DECADES AND ITS PRODUCTS ARE AVAILABLE FROM PRODIST. TO ENSURE MAXIMUM USE AND LONGEVITY FROM THE HAWKINS RANGE, PLEASE BE SURE TO REMEMBER THESE HANDY TIPS.

### 1. HOW DO I CHOOSE A BATTERY CHARGER?

If it is a SEALED battery then an AUTOMATIC charger MUST be used. Serious damage to the battery could result if a MANUAL charger is used and has been forgotten on charge. If it is a refillable battery (with caps that allow the addition of distilled water) then either an automatic or a manually controlled charger will do.

A rule of thumb is to choose a battery charger capable of a current (in amps) 1/10th of the battery capacity. For example, a 50amp-hour battery would require a charger capable of 5 amps.

A lower charge rate will do the battery no harm, but a higher rate may lead to excessive gassing and progressive damage of the battery's internal plates.

### 2. HOW LONG DOES IT TAKE TO CHARGE A BATTERY?

It follows from above that if you've chosen a charger using the 1/10 th capacity rule, it will take about 12 hours because of heat and conversion losses.

### 3. WHAT IS THE BEST CHARGER FOR A VEHICLE THAT IS NOT USED VERY OFTEN OR FOR STANDBY APPLICATIONS?

A small automatic charger, such as the Hawkins SMART6, is the best charger for this purpose. Such a charger will sit quietly in the corner charging away and switch itself off when the battery has reached the set-point of the charger. Generally it will maintain the battery voltage for weeks, months or years if need be so that the battery is available at a moment's notice. **PD**

# MOET DIT NIE MISLOOP NIE!

Na die sukses met verlede jaar se Ope Dae, is besluit om dieselfde formaat te gebruik vir die 2015 geleentheid – net met nog meer klem op nuwe reekse en spesiale aanbiedings. Daar is hierdie jaar ook 'n spesiale fokus op besproeiing- en meganisasieprodukte.

Die doel is om Prodlist se klante blootstelling te gee aan die reekse en Prodlist se verskaffers en aktiwiteite. Die belangrikste sal egter wees die bekendstelling van produkte en konsepte.

Die klem sal ook val op opleiding en die oordra van kennis. Dit sal van waarde wees vir hoofkantoorpersoneel soos aankopers en produkbestuurders, maar ook vanuit 'n opleidings en blootstellingsoogpunt vir takbestuurders en ander takpersoneel.

## BOSTIK BATH OR ALCOLIN SILICONE SEALANT -

SIX OF ONE, HALF-A-DOZEN OF ANOTHER

THERE'S LITTLE TO CHOOSE FROM BETWEEN THESE TWO ADHESIVE SEALANTS WITH BOTH BRANDS FEATURING SIMILAR FEATURES AND BENEFITS. NONETHELESS, PRODIST OFFERS YOU A CHOICE BASED ON YOUR INDIVIDUAL PREFERENCE.

**BOSTIK BATH** is a white, one-part acetoxy-curing high quality sanitary silicone sealant that gives a permanent flexible, durable, watertight seal for general purpose sealing in and around the bathroom. It is also excellent for use as an adhesive where an elastic gap-filling bond is required.

Excellent mould resistance makes Bostik Bath ideal for sanitary-ware applications such as sealing around bathroom and kitchen fittings, baths, showers, sinks, and toilets. Bostik Bath is also suitable for many other sealing, bonding, and mending tasks around the home, car, boat and caravan.

Bostik Bath exhibits excellent primerless adhesion to many non-porous materials e.g. ceramics, glass, enamel, porcelain, coated wood, painted surfaces, canvas, stainless steel, aluminium, some rubbers and some plastics (epoxide, polyester, polyacrylate, polystyrene, formica, fiberglass, acrylics, polycarbonates and rigid PVC).

**ALCOLIN SILICONE SEALANT** is a one-part acetoxy-curing silicone sealant that provides a permanent flexible watertight seal for general purpose sealing in and around the home.

Alcolin Silicone Sealant is ideal for sealing, bonding and mending in cars, boats, caravans, and houses e.g. sealing around bathroom and kitchen fittings, baths, showers, sinks, toilets, oven door windows, window frames, boards, signs, insulating appliances, fixing leaking plumbing, etc.

Alcolin Silicone Sealant exhibits excellent primerless adhesion to many non-porous materials e.g. ceramics, glass, enamel, porcelain, coated wood, painted surfaces, canvas, stainless steel, aluminium, some rubbers and some plastics (epoxide, polyester, polyacrylate, polystyrene, formica, fiberglass, acrylics, polycarbonates and rigid PVC).

## 4x4 SKOU

FARMCITY HET SY SKOENE BEHOORLIK VOLGESTAAN BY DIE JAARLIKSE 4X4 SKOU WAT GEHOU IS BY DIE VOORTREKKERMONUMENT IN PRETORIA.

**E**lke jaar is dit die plek waar 4x4 en buitelewe-entoesiaste bymekaar kom. FarmCity het hul groot reeks buiteleweprodukte ten toon gestel. Dit bestaan ondermeer uit Basecamp, Energizer, Lite Optec, Coleman asook John Deere klere. Die skou is oor twee dae gehou. FarmCity het weereens goeie blootstelling en verkope gehad. **ED**

## MORE THAN 25000 ATTEND HOLIDAY EXPO

THE BEELD HOLIDAY SHOW SAW 27360 PEOPLE ATTEND THE EAGERLY AWAITED EVENT HELD AT GALLAGHER ESTATE FROM FEBRUARY 27 TO MARCH 1 THIS YEAR.

**F**armCity's Estelle Benade says sales went well: "We moved quite a bit of merchandise and the exposure was great. It's always good to increase our brand awareness. The ranges on display included John Deere clothing and toys, which are always popular. The Basecamp outdoor items sold well, especially the camping chairs. We even had to replenish stock during the course of the expo." **ED**

# NOW YOU NEVER HAVE TO DROP THE BALL WITH BALL HOME PRESERVING

# NUTS AND BOLTS

## UPGRADE

You've heard the expression "to master something you have to get down to the nuts and bolts of the issue". Well at Prodlist we've upgraded our nuts and bolts to make it much easier and more efficient to manage, store and use our quality range of these kinds of fasteners.

**T**he upgrade means that the complete range (except for plough bolts) of nuts and bolts has been upgraded to electro-galvanised finishing. All fasteners are pre-packed and properly marked with a part number, description and quantity in packet. The old unit of "kilogram" has been changed to the new unit of trade in "each".

The good news for the customer is that we have managed to do these upgrades without having to increase our prices, which translates to a considerable saving for our clients and the end user.

### ELECTRO-GALVANISING

The upgrades were necessary not only because it would give the customer an advantage, but because sales in this category have grown by more than 200% in the South African market over the past 5 years whilst the demand for "self colour" products has subsided. We believe that this upgrade will put our customers back on track with the current market trend and help to grow their markets. Gone is the time when the handling of bolts and nuts was a messy affair of oily hands, Electro-galvanised products are clean and just looks better.

### PRE-PACKAGING

Pack-sizes have been selected to distinguish between "fast moving" and "slower moving" products (fast moving products around quantities of one kilogram and slow moving products in quantities as low as hundred grams). This enables our clients to sell full packets rather than loose bolts and nuts, should that be their choice. Time is money and Prodlist believes this initiative will assist our clients to increase their profit-margins by saving them time. Stock-takes will become more accurate and much faster since you can now count packets and not loose products.

### UNIT EACH

The new weighing measurement means no more scales and weighing required, no more stock-losses because of inaccuracy and rounding, and no more shortages. **PD**
