

<p>RC Roller</p>	<p>Rotacrat Bearing</p>  <p>The technical drawing shows two views of a Rotacrat Bearing. The top view is a front view of a cylindrical roller with a central bore. It features two small circular features on the outer diameter, one on each side. Dimensions are indicated: an outer diameter of 102, an inner diameter of $\phi 20$, a width of 85, and a height of 55. A small hole on the left side has a diameter of $\phi 9$. The bottom view is a side view showing the profile of the roller, with a height of 34 and a thickness of 2.</p>	<p>F03000295</p>
